

You've asked for ID... Now What?

1

Handling the ID

HOLD ID in your hand. Ask customer to take ID out of his wallet.

SWEEP your fingers across the face of ID. If it has been altered, you'll feel bumps or marks on the surface.

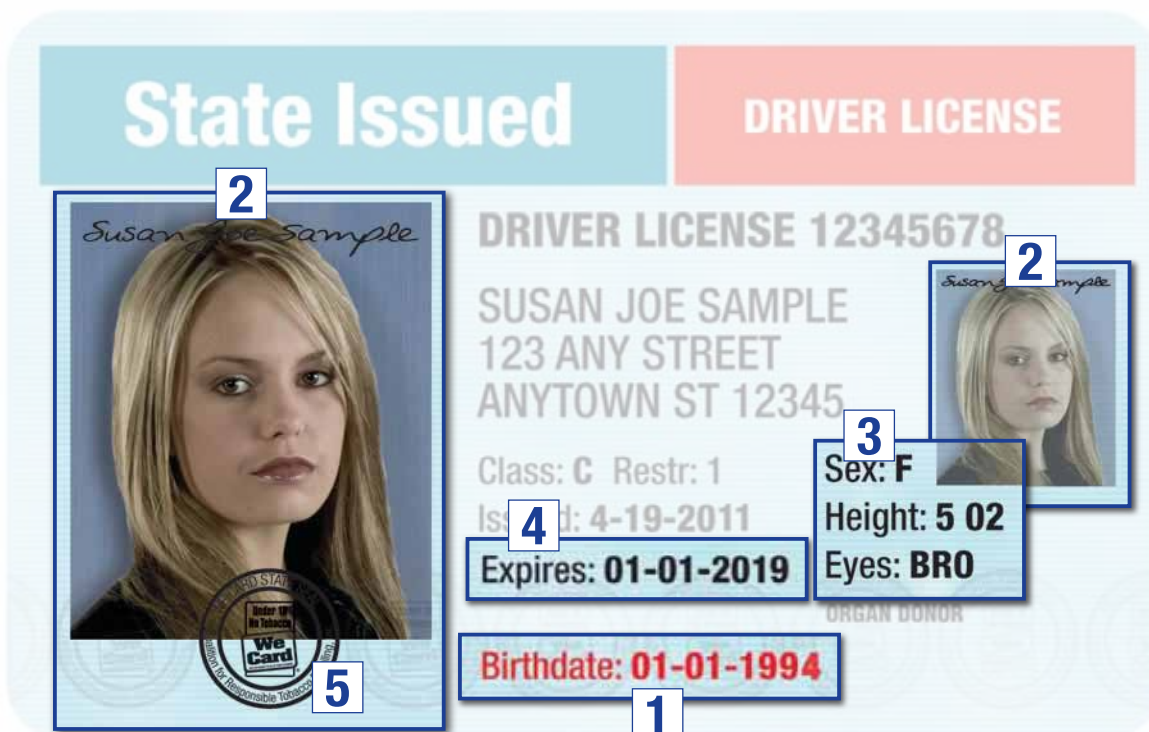

FLIP the ID over. Look at the back for bar codes/stripes. Most states have some kind of bar coding or magnetic strip on back. If it's blank on the back, it's probably fake!

2

Checking the ID

- 1 DATE OF BIRTH:** Compare it to your *We Card* Age of Purchase Calendar to ensure the customer is of legal age.
- 2 PHOTO:** Compare the customer to the picture. Is this person the same?
- 3 DESCRIPTION:** Does the description on the ID match the customer?
- 4 EXPIRATION DATE:** All forms of identification used to verify age **MUST** be valid. Don't accept an expired ID!
- 5 ALTERATION:**
 - Look at the ID under a bright light to detect flaws and alterations.
 - If ID has two photos, make sure they match.
 - Make sure that the state seal, logo or hologram have not been altered.
 - Check the lamination (if any) for peeling, scratches or bubbles.
 - If "Duplicate" appears on the ID, be cautious. Someone else may be using the original.
